Microsoft Dynamics AX

Microsoft Dynamics is a line of integrated, adaptable business management solutions that enables you and your people to make business decisions with greater confidence. Microsoft Dynamics works like and with familiar Microsoft software, automating and streamlining financial, customer relationship and supply chain processes in a way that helps you drive business success.

Installation instructions

1. Download the Microsoft Dynamics AX 2012 Beta Drop (Build 6.0.852.78) from <http://go.microsoft.com/fwlink/?LinkID=215477&clcid=0x409>.
2. Unzip the files into a new folder. This folder is referred to as the **AX 2012 Beta Drop folder** in the instructions below.
3. Navigate to the *AX 2012 Beta Drop* folder.
4. Launch, setup and install Microsoft Dynamics AX 2012.
5. Download the **Project management and accounting add-in.exe** file from <http://go.microsoft.com/fwlink/?LinkID=215476&clcid=0x409> into a new folder.
6. Extract the files into a new folder. This folder is referred to as the **ProjectAddin folder** in the instructions below.
7. Click **Start**, and then click **Run** to launch a command line.
8. Stop the AOS: Enter **net stop aos60\$01** on the command line.
9. Navigate to the *<AX 2012 Beta Drop folder >* \ 60\Server\Microsoft\bin.
10. Run the following command:
axutil.exe import /file:< ProjectAddin folder>\ProjectFeaturePack.axmodel /layer:FPK
11. Start the AOS: Enter **net start aos60\$01** on the command line.
12. Launch Microsoft Dynamics AX. Select **Compile and synchronize** on the dialog, and then click **OK**.
13. Continue with the steps in the initialization checklist.
14. Download the **Project Management and Accounting Add-in** demo dataset in the **6.0.852.78-contoso-SI-Beta.zip** file from <http://go.microsoft.com/fwlink/?LinkID=215476&clcid=0x409>.
15. Unzip and load the dataset from the **6.0.852.78-contoso-SI-Beta.zip** file into Microsoft Dynamics AX.
