Microsoft Dynamics AX

Microsoft Dynamics is a line of integrated, adaptable business management solutions that enables you and your people to make business decisions with greater confidence. Microsoft Dynamics works like and with familiar Microsoft software, automating and streamlining financial, customer relationship and supply chain processes in a way that helps you drive business success.

Installation instructions

1. Download the Microsoft Dynamics AX 2012 Beta Drop (Build 6.0.852.78) from <http://go.microsoft.com/fwlink/?LinkId=215563>.
2. Unzip the files into a new folder. This folder is referred to as the **AX 2012 Beta Drop folder** in the instructions below.
3. Navigate to the *AX 2012 Beta Drop folder*.
4. Launch, setup and install Microsoft Dynamics AX 2012.
5. Download the **PublicSector.exe** file from <http://go.microsoft.com/fwlink/?LinkId=215564> into a new folder.
6. Extract the files into a new folder. This folder is referred to as the **PublicSector folder** in the instructions below.
7. Click **Start**, and then click **Run** to launch a command line.
8. Stop the AOS: Enter **net stop aos60\$01** on the command line.
9. Navigate to the *<AX 2012 Beta Drop folder>\60\Server\Microsoft\bin*.
10. Run the following command:
axutil.exe import /file:<PublicSector folder>\PublicSector.axmodel /conflict:Push
11. Start the AOS: Enter **net start aos60\$01** on the command line.
12. Launch Microsoft Dynamics AX. Select **Compile and synchronize** on the dialog, and then click **OK**.
13. Download the **Public Sector** demo dataset in the **PublicSectorData.zip** file from <http://go.microsoft.com/fwlink/?LinkId=215564>.
14. Unzip the files in **PublicSectorData.zip** into the **PublicSector folder**. Follow the instructions in the **Readme_PublicSectorData.pdf** file to import the data into Microsoft Dynamics AX and complete data setup.
